

# Grass collector

## - City Ranger 2260 (for rotary mower 1200)

1285 mm

3230 mm

### Standard equipment:

<b>Stand / frame</b>	The supplied frame allows for simple and quick attaching and removal of the hopper. The stand is also used for storing the hopper.
<b>Hydraulic emptying function</b>	The hopper can be emptied without leaving the seat. The hydraulic tip function is controlled from the joystick and the cover on the hopper opens automatically when tilted.
	The tipping height can be adjusted from 575 to 1860 mm allowing for tipping directly into containers within this height range.

### Extra equipment (options):

<b>Leaf collection hose</b>	It is also possible to remove leaves with the grass collector. When a leaf collection hose is fitted on the hopper, you can remove leaves in places where the mower cannot work - up to 6 m. The lightweight leaf collection hose is discretely fitted on the top of the hopper, when not in use.
<b>Grass panel (10 mm)</b>	The hopper is supplied with a 5 mm grass filter as standard, to minimise airborne deposits when working with dry grass. A 10 mm grass filter increases airflow and suction power, and is an advantage when working with damp and heavy grass.
<b>Plastic panel</b>	Used for very damp and sticky grass. The plastic panel is inserted into the hopper to prevent the grass filter from becoming blocked.
<b>Mulch and rotary mower kits</b>	You can quickly convert the grass collector to a non-collecting mulch mower or standard rotary mower with the help of special kits available.

### Technical specifications

<b>Dimensions</b>		
Length (with mower 1200)	mm	3230
Width (with mower 1200)	mm	1285
Height with cabin / roll bar (ROPS)	mm	1939 / 2060
Height with leaf collection hose	mm	2150
<b>Storage dimensions</b>		
Length	mm	1700
Width	mm	940
Height with / without collection hose	mm	2150 / 1950
<b>Weights</b>		
Weight with cabin / roll bar (ROPS) <sup>1)</sup>	kg	1242 / 1212
Payload with cabin / roll bar (ROPS)	kg	368 / 398
Weight (grass collector)	kg	202
Weight (frame)	kg	31
<b>Hopper (grass collector)</b>		
Hopper volume	l	750
Hopper load, max.	kg	300
Tipping height, min.-max.	mm	575-1860
<b>Performance</b>		
Air flow	m³/h	2400
Air speed	km/h	120
Operating speed	km/h	1-10
<b>Noise emissions</b>		
Sound power level LwA (2000/14/EC and DIN EN ISO 3744)	dB(A)	105
<b>CE certified according to EU directive</b>		

<sup>1)</sup> Includes: grass collector, mower 1200, 75 kg operator and 90% fuel capacity.
